

Figure 1: A dot plot showing the distribution of 1000 random samples across 20 categories. The categories are listed on the y-axis, with 'FER1' at the top and 'LOC101509822' at the bottom. The x-axis represents the count of samples, ranging from 0 to 1000. Each category has a horizontal line of dots. The size of the dots varies, indicating the frequency of each category. The 'FER1' category has the largest dots, while 'LOC101509822' has the smallest.
